Switches.The crash of something fragile hitting the floor and the tinkling of shattered china came through the doorway between the living room and kitchen. Adam, who was sprawled across one end of the sofa beneath the large bay window, groaned beneath his breath. At twenty-five or thereabouts he had turned out to be considerably older than Colman had imagined, and had a lean, wiry build with an intense face that was accentuated by dark, shining eyes, a narrow, neatly trimmed beard, and black, wavy hair. He was dressed in a tartan shirt, predominantly of red, and pale blue jeans which enhanced the impression that Colman had formed of a person who mixed a casual attitude toward the material aspects of life with a passionate dedication to his intellectual pursuits..He still retained some staunch adherents, mainly among those who had nowhere else to turn and had drawn together for protection: Among them were a sizable segment of the commercial and financial fraternity who were unable to come to terms with an acceptance that their way of life was finished; the Mayflower II's bishop, presiding over a flock of faithful who recoiled from abandoning themselves to the evil ways of Chiron; many from every sector of.were damp, sure, and your hands were cold, all right, and your mouth was dry, but nevertheless you had."Yesterday," Micky lied..The boy almost corrects her on two counts. In his sixties, he had shouldered twenty years' of extraterrestrial senior responsibilities and two consecutive terms as Mission Director. Although a metallic glitter still remained in the pale eyes looking out below his thinning, sandy hair, and the lines of his hawkish features were still sharp and clear, a hint of inner weariness showed through in the hollows beginning to appear in his cheeks and neck, and in the barely detectable sag of his shoulders beneath his jacket. His body language seemed to say that when he finally had shepherded the Mayflower I1 safely to its destination, he would he content to stand down..Of course, dear." Geneva poured from a glass pitcher that dripped icy condensation..found..Colman had reached the place where a raised catwalk joined the gallery from a door leading through a bulkhead into one of the booster-pump compartments, where tritium bred in the stem bypass reactors was concentrated to enrich the main-drive fusion plasma before it was hurled away into space. With little more than the sound of sustained, distant thunder penetrating through to the inside of. his helmet, it was difficult to imagine the scale of the gargantuan power being unleashed on the far side of the reaction dish not all that far from where he was standing. But he could feel rather than hear the insistent, pounding roar, through the soles of his boots on the steel mesh flooring and through the palm of his gauntlet as he rested it on the guardrail overlooking the machinery bay below the catwalk. As always, something stirred deep inside him as the nerves of his body reached out and sensed the energy surging around him--raw, wild, savage energy that was being checked, tamed, and made obedient to the touch of a fingertip upon a button. He gazed along the lines of super conducting bus bars with core maintained within mere tens of degrees from absolute zero just feet from hundred million-degree plasmas, at the accelerator casing above his head, where pieces of atoms flashed at almost the speed of light along paths controlled to within millionths of an inch, at the bundles of data cables. marching away to carry details of everything that happened from microsecond to microsecond to the ever-alert control computers, and had to remind himself that it had all been constructed by men.
