The prince swam to shore, and Amos helped him..anyone. He had his three endorsements?one from a poet who'd published twenty-two books?and he..He was holding the door three quarters shut, and so I couldn't see anything in the room but an expensive-looking color TV. He glanced over his shoulder nervously at something behind him. The inner ends of his eyebrows drooped in a frown. He looked back at me and started to say something, then, with a small defiance, shrugged his eyebrows. "Sure, but there's not much I can tell you."..I'm sure she thought he was an imp from hell. I almost died. I'm not sure what was wrong. Apart, we..live. I've heard it before. That's a male-oriented way to look at it, Crawford." She was regaining her..The assumption here is that matters not subject to cut-and-dried "hard" proof don't bear any relation to evidence, experience, or reason at all and are, therefore, completely arbitrary. There is considerable indirect evidence one can bring against this view. For one thing, the people who advance it don't stick to it in their own lives; they make decisions based on indirect evidence all the time and strongly resist any imputation that such decisions are arbitrary. For another, if it were possible to do criticism according to hard-and-fast, totally objective rules, the editor could hire anyone to do it and pay a lot less than he has to do now for people with special ability and training (low though that pay necessarily is). It's true that the apparatus by which critics judge books is subjective in the sense of being inside the critic and not outside, unique, and based on the intangibles of training, talent, and experience. But that doesn't per se make it arbitrary. What can make it seem arbitrary is that the whole preliminary process of judgment, if you trace it through all its stages, is coextensive with the critic's entire education. So critics tend to suppress it in reviews (with time and training most of it becomes automatic, anyway). Besides, much critical thinking consists in gestalt thinking, or the recognition of patterns, which does occur instantaneously in the critic's head, although without memory, experience, and the constant checking of novel objects against templates-in-the-head (which are constantly being revised in the light of new experience), it could not occur at all.* Hence angry readers can make the objection above, or add:..That stopped me for a minute, but I'm not sure why. I must've had a mental picture of Charles Laughton riding those bells or Igor stealing that brain from the laboratory. "He's good-looking and he's a hunchback?"..still on the table. His suitcase was on the floor by the couch. It was riveted cowhide of a vintage I hadn't..blankets move up and down, up and down with breathing. That's how Amos knew this was a person..It didn't surprise them too much. The Burroughs had given them: just about everything it could hit..The nature of the beast," he mutters, almost sadly, and smacks the palm of his gloved hand against..The second meeting is to take place this afternoon. All of us have our fingers crossed..Then came the examination, the removal to the hospital, the tests and the verdict A simple matter.."You won't tell her, will you?" she asked anxiously..nature, and diligence that others expect of us; nevertheless. . .".anything. But I do have some knowledge that might prove useful."..Then all the blankets fell away, and a man with more colors on him than Amos had ever seen sat up
